## PORK GOING OUT OF SIGHT; MARKET TAKES A BIG JUMP.

**PACKERS LOOK FOR RAISE;  
ALL BUYING FRANTICALLY.**

BOST IN CHICAGO SAID TO BE  
FORERUNNER THAT PRICE TO  
CONSUMER WILL REACH HIGH-  
EST FIGURE.

CHICAGO, Dec. 10—The hog mar-  
ket at the stock-yards jumped almost  
out of sight today.

This is said to be but the start of  
a gradual raise in prices that will  
soon put pork to a figure never be-  
fore known in this country.

At the very start today the mar-  
ket opened 30 cents higher in antici-  
pation of the jump and with the big  
packers buying frantically.

The announcement today from the  
big packing interests that the price  
of pork will soon soar, coming so  
soon after the recent announcement  
that the people could soon look for  
a gradual reduction in the general  
cost of living, has come as a severe  
blow to the middle and lower classes.

G. W. Swan, lessee of The Austin,  
it at that hotel with his sister,  
Miss H. L. Swan, preparatory to  
opening the house for business next  
Wednesday, Dec. 14. The Austin's  
popularity will be continued under  
the able management of Mr. Swan,  
who is an experienced hotel man.

**PEOPLE LOOKING FORWARD  
TO THE HULLEY LECTURE.**

**PRESIDENT OF STETSON UNIVER-  
SITY WILL BE GREETED WITH  
A PACKED HOUSE MONDAY EV-  
ENING.**

Ordinarily a lecture with a 25c ad-  
mission fee attached does not appeal  
to the average citizen, but there are  
times when the price does not indi-  
cate the quality. This is the case in  
the coming lecture of Dr. Lincoln  
Hulley, of Stetson University, and  
advance indications are that the high  
school auditorium will be packed  
when Dr. Hulley comes here next  
Monday evening to deliver his fa-  
mous lecture of "Riley and the Home  
Folks."

It was only after much persuasion  
that Dr. Hulley consented to allow  
an admission to his lecture to be  
charged, and then only after being  
assured the proceeds should be  
turned into the charity fund of the  
local lodge of Elks.

Viewed from the point of quality  
the admission fee to Dr. Hulley's lec-  
ture should be several times larger  
than the price at which it has been  
placed and there is no question but  
that the people of Daytona will em-  
brace this opportunity to hear one  
of the greatest lectures ever de-  
livered in this city.

Dr. Hulley voluntarily offered to  
deliver this lecture in Daytona for  
the Elks because of the impression  
of the organization he gained when  
he delivered the annual memorial ad-  
dress here last Sunday evening.

**BUILDING  
ACCEPTED  
BY BOARD.**

**PUBLIC SCHOOL STRUCTURE  
IS NOW FULLY COMPLETED.**

**AFTER THOROUGH INSPECTION  
BY BOARD AND ARCHITECT TH  
FINAL PAYMENT IS MADE TO  
THE BUILDER THIS MORNING.**

The new Daytona public school  
building is completed. It has been  
submitted to the local board of school  
trustees in its completed state and  
accepted and the final payment on  
the building, with the exception of  
the heating plant, has been made to  
S. H. Gove, the builder. The heating  
plant was not included in the con-  
tract price but is being installed by  
Staples & Cutten on a percentage  
basis.

With the completion of this formal  
business transaction Day-  
tona now has one of the most  
handsome, complete and up to date  
public school buildings to be found  
in a city of its size anywhere in the  
south. The structure is a credit to the  
thrift and energy of the citizens and  
an ornament of which Daytona may  
well feel proud.

The building has been practically  
completed and ready to turn over to  
the school board for some time, with  
the exception of the installation of a  
slate sink in the chemical room and  
the installation of the heating plant.  
The placing of the sink in the  
chemical room has been delayed be-  
cause of the fact that four different  
ones have been ordered and every  
one but the last one has been broken  
in shipment to this city.

Construction work on the public  
school building was begun early last  
year, soon after the bond issue of  
\$35,000 had been voted by the citi-  
zens, and was rushed through the  
summer to have it ready for occu-  
pancy when school convened for the  
fall term. The total contract cost  
has been \$41,500, with a total of  
about \$700 for extras. In addition to  
this amount the installation of the  
heating plant has cost the board  
in the neighborhood of \$5,000.

W. C. DeGarmo, of Miami, the  
architect, came to Daytona Thurs-  
day for a final inspection of the  
building with the members of the  
school board, Messrs. William Jack-  
son and W. M. Hankins and Rev.  
A. J. Wilder, and everything was  
found to be in accordance with the  
terms of the contract. The final pay-  
ment was made by the school board  
to S. H. Gove, the builder, this morn-  
ing.

BELFAST, Ireland, Dec. 10—The  
political situation here is getting be-  
yond the control of the authorities as  
a result of the feeling that has  
been stirred up during the elections.  
A bomb thrown last night fatally  
wounded John Watson, a private citi-  
zen, and a half dozen policemen were  
also fatally wounded. The indepen-  
dent Orange hall has been wrecked  
by a bomb.

The rioting and fighting between  
the Orangemen and Nationalists con-  
tinues today and serious results are  
feared.

At noon today the government coal-  
ition forces had gained a lead of 37  
over the Unionists in the selection of  
the new parliament.

## GREAT INCREASE IN BUSINESS IN THE PAST EIGHT YEARS.

Roy C. Bower arrived from Wash-  
ington, D. C., last night to assume  
charge of the prescription depart-  
ment at Hankins' drug store during  
the season. With one exception this  
completes Mr. Hankins' force for the  
winter, which, with the Seabreeze  
branch, will number twelve, while  
eight years ago Mr. Hankins himself  
looked after the business without as-  
sistance.

## POPULATION OF COUNTRY ANNOUNCED.

**THERE ARE 93,402,191 OF US  
IN WHOLE UNITED STATES.**

**AS RESULT OF CENSUS ENUMER-  
ATION CONGRESSIONAL REAP-  
PORTIONMENT WILL BE MADE  
IN NEAR FUTURE.**

WASHINGTON, Dec. 10—It was  
officially announced today that the  
total population of the United States,  
as shown by the 1910 census, is 93,-  
402,191. These figures do not include  
the people in the Philippine islands  
and show an increase of 20.9 per-  
cent or 16,145,521 over the population  
of 1900.

The total estimated population of  
the United States including the Phil-  
ippine islands is 101,100,000.

The population of Georgia is an-  
nounced as 2,609,121, a gain of 392,-  
790 or 17.7 per cent since 1900. Under  
the present apportionment Georgia  
gains one congressman.

The house census committee, of  
which Crumpacker, of Indiana, is  
chairman, has begun work on a pre-  
liminary bill for the reapportionment  
of the congressional districts.

Additional representation in con-  
gress, according to the present ap-  
portionment will be Alabama, Col-  
orado, Connecticut, Florida, Georgia,  
Kansas, Louisiana, Michigan, Minne-  
sota, Mississippi, North Carolina,  
North Dakota, Oregon, Virginia, West  
Virginia and Wisconsin one each;  
Massachusetts, two; New Jersey and  
Washington, three each; California  
Illinois, Oklahoma and Texas, four  
each; Pennsylvania, six; New York,  
nine; total, 59.

## Did You Ever Pay a Bill Twice?

The one who has not had to pay  
more than one bill the second time is  
the exception and not the rule. Few  
people when paying a bill ask for a  
receipt and if they do they fail to  
keep the receipt. Did you ever have  
a dispute over a payment? Unpleas-  
ant is it not? Do you wish the cir-  
cumstance to occur again. There is  
one sure way to escape it. Pay your  
bills with checks. Transact your  
business in a business way and  
pay your bills by checks. Your  
check when returned to you makes  
an indisputable receipt. A bank ac-  
count makes you systematic and en-  
courages you to save part of your  
income. Many a man has become  
rich because he became interested  
in watching his bank balance, and  
was thus led to find ways to increase  
it. Start a bank account with us  
and we will help you make it larger.  
Why not begin today?

**TEN DEAD AND SIX DYING HAVE

CALGARY, Alberta, Canada, Dec.  
10—Ten dead and six dying have  
been recovered, while 50 others are  
believed to be dead in the Bellevue  
mine of the Western Canada collier-  
ies, which is a raging furnace today  
as the result of an explosion this  
morning.

The work of rescue is being car-  
ried on with all the speed possible  
and strong efforts are being made to  
reach the entombed men in the hope  
that they are still alive.

The mine is owned by St. Paul cap-  
italists.

PUBLICLY DISCUSS IMPORT-

The columns of the Daily News  
are always open to communications  
from citizen on all subjects of gen-  
eral interest and space is willingly  
given the following communication  
because it touches upon a matter of  
vital interest to the people of the  
city:

Editor Daily News:—I have read  
with a great deal of interest the plat-  
forms of Messrs. Heymann and Zuber  
the two candidates for Mayor, and no-  
tice that their efforts in announcing  
to the people of Daytona the prin-  
ciples for which they stand, are just  
as successful as most platforms  
usually are. It is an easy matter to  
state that you are in favor of a num-  
ber of generalities, especially those  
that you think may be most popular  
with the largest number of voters. In  
fact a platform such as these gen-  
erally contain a plank to suit every  
class of voters.

What I would like to see, and I  
think this is the feeling of a majority  
of the voters, would be a joint de-  
bate between these two candidates,  
properly announced, so that the  
voters of the city may have a chance  
to hear each express himself more  
fully and to have the opportunity of  
asking the gentlemen questions that  
will bring out matters that would  
otherwise be ignored by them. If  
these gentlemen are in the race in  
earnest they should be glad to ac-  
cept such an opportunity as this to  
stand before the people whose votes  
they are asking and in joint debate  
state to the citizens of Daytona ex-  
actly what they may expect after the  
election.

**PLAN UNDER CONSIDERATION  
TO CALL OUT ALL MEMBERS.**

**CALL FOR A MEETING OF THE  
EXECUTIVE BOARD OF THE  
UNION FOR THIS PURPOSE IS  
SUED FROM CHICAGO.**

CHICAGO, Dec. 10—A meeting of  
the executive board of the Garment-  
workers of America was called to-  
day to consider the question of call-  
ing out on strike all members of the  
union in America. A quarter of a  
million workers will be involved if  
such a strike is called.

The direct cause of this sudden  
climax in the garmentworkers' strike  
is said to be the discovery that the  
Wholesale Clothiers' association and  
the Wholesale Tailors' association are  
now sending their work out of Chi-  
cago, where the strike is on, to other  
cities.

It is claimed the sentiment among  
the garmentworkers is strongly in  
favor of the calling of a general  
strike to cover the whole United  
States.

Efforts will be made by the busi-  
ness interests in Chicago and else-  
where to prevent this action on the  
part of the executive board of the  
union because of the disastrous ef-  
fect it would have on business in  
general.

THIS EVENING.**

In the Music Hall Girl, which is  
the attraction at the Daytona Thea-  
ter tonight, patrons of the new play-  
house are to be entertained with a  
bright, sparkling musical comedy,  
which comes to Daytona with a rep-  
utation of being one of the best musi-  
cal farces on the road in this part  
of the country.

In introducing the line of attrac-  
tions to be brought to Daytona this  
winter Managers Sneed and Morris  
of the theatre, are making a strong  
effort to get the best to be obtained  
and are booking a line of high class  
attractions because they desire to  
give the city the reputation of sup-  
porting good shows.

The Music Hall Girl is a clean  
show which will be highly enter-  
taining to all classes of people.

Manager Titus of the Crystal  
Theatre has for tonight's show two  
splendid pictures in "The Vampire"  
and "The Touch of the Child Hand."  
Both of these films have been re-  
leased within the past week and  
are entirely new to this section of  
the country. The picture of the Vam-  
pire is taken from Kipling's great  
poem of the name and is declared  
to be one of the finest moving pic-  
tures ever produced.

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever peered a bicycle over an expanse; no one who ever drove a spanking pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and sun-paked sand has realized that it is a world leader, a world wonder. So stand upon this wide highway and see the happy souls who are at joyous mood, and answer whether this is not one of the seven modern wonders.

The Pineda, Ballou-Hallifax River. Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages and roomy verandas looking out upon her bosom, sandy food fishes in countless numbers beckoning, as it were, to those who will eat and seep her down thick with duck and quail and snow-winged sea birds, which sit about as if for the sport of looking upon the water, which that dabbly old white-headed pelican punch a dim mallet, and that tall hawk struggling upward with his bounding feet is snatched from the water.

See the beautiful hammocks, speck and speck with hamper and docket, and with hammocks, both solid and light, ready for a cruise upon in beautiful surface. Take out your field glass and sweep the river from Grand bridge to House Park light house, then see whether the bird that sits a perch of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridge road.

Ridge road, a road of granite, is a road of granite, straight as the arrow and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent view, forming an arch, and from these extended arms great festoons of Spanish moss hang as the shade hangs from the tropic sea fan trees. Looking straight ahead down this white shell street one has the impression of a long path with white draperies, but as you move along and cast an eye first to the right and then to the left you are disappointed to see nothing but the most delightful settings.

See the placid rest of the grand Magnolia which nature has varnished as a white dome, ever ready, and the change of color with their pattern of green and white and white and white, and the lovely white with an elegant leafy and the climbing vines and the in the trees, and the copiousness of the white and a live oak on the great oak and white palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Appetizing Beauty of Our Cottage Homes.

So one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the athletic prowess. The owners of these charming villas have from every corner of the country and from their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our cottage differ in outward appearance and structural beauty from one another. There are no unadorned rows of strikingly similar build but for the eye, as it sweeps by, it is as if it were a kaleidoscope changed which brings the mind wondering "What next?"

It is not only the exterior of these of these houses which receive attention, but their artfulness of construction, and the finishing and furnishing give evidence of the elegance and civilization of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surprising charm to Daytona homes. This feature justly merits prominence as an other wonder.

Streets and Pavements the Most Artistic.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

Gardens, Flowers, Birds and Fruit.  
Whatever one's shortcomings and  
however indifferent or even callous  
one may be to many things, there are  
men of "flowers and gardens,"  
birds and fruit" will send a thrill  
that is reflected in delighted pupils  
and grinning ears.

For every visitor with a spare pocket  
there is a money ready to come  
and accept your gift. He will reach  
out and grasp into the street,  
casting furtive, saucy glances at you  
as he goes.

Flowers. Gaily fresh and bloom-  
ing the year round, you are reminded  
of the olden days when the  
landowner in his garden and  
landowner's finger blossoms  
are delayed.

In one yard rows of variegated lines  
predominate, another household that  
a garden for the present and the  
present are alike, another is ad-  
ded in a jungle of wild-rose. Variety  
is the spice of life and here is where  
you find it.

The trees fit in, and with their  
poetic notes help to give richness  
and symmetry to the picture.

As for fruits, citrus fruits, drakes,  
Daytona yields the palm to none for  
quality and quantity per acre. There  
are scores of citrus groves in prox-  
imity to the city, branches bending  
at the earth with their burdens of  
luscious golden grapes, which for  
beauty, perfection and all desirable  
qualities would truly astonish you.

The Fastest Autos and The Finest  
Cuts.

The seventh wonder, as you  
and "Come, whether from Daytona  
or from Miami, from Jacksonville or  
Tampa, and you will be "known."  
Here is where the world's record for  
speed is broken with ever recurring  
success. Autos, the fastest, the fast-  
est, and the finest are on daily gar-  
rage and the big show is as fast as  
the great automobile water from the  
towers of flowing wells. It is a  
continuous show with a constantly  
shifting scene.

Everyday goes, from a machine  
power of a 20-horse power, and all  
degrees of speed from a carter  
to a twelve-horse machine. You will  
probably catch the spirit, when you  
are in the crowd and the beachers young.  
The Florida sunshine is free, the  
beach open to all, and the beachers young.  
The beach and the beachers young.  
The beach and the beachers young.

This is to be a beautiful picture, the all  
here. It is a drawing other thousands  
and thousands of other thousands, it will  
draw and draw you. Come and see.

"The day seems to have an un-  
usually sunny glow to it."  
"The day is a pig. This is a com-  
plicated show, and night."—Pittsburg Post.

"I suppose a newspaper has to print  
something for every day."  
"And the editor says, 'You must try  
to interest all. By the way, we are  
tired with you are making a big  
hit with our new readers.'—Littell  
City Journal.

"What was the matter?"  
"I don't know."  
"You had just powder."  
"He was just dead."  
—Cleveland Leader.

"A Magazine of an optimistic turn."  
"I don't know. Why do you say while he's  
playing solitaire?"—Browning's Maga-  
zine.

"Hevins—That better be a pretty slow  
workman."  
"Jewett—Not necessarily. I was just  
about to tell him that I was in  
a hurry."—New York Press.

## Permanent Fortification Of Panama Canal and What It Portends.

By PHILIPPE BUNAU-VARILLA, French Engineer. Who Wrote Canal Treaty With Secretary John Hay.

THE UNITED STATES HAS NO RIGHT UNDER TREATY TO CONSTRUCT A VAST SYSTEM OF PERMANENT FORTIFICATIONS.

I confess that if I were an American I should be embarrassed, strongly embarrassed, between the possible need of fortifications and the DUTY NOT TO BUILD THEM, for the choice must be made.

With the canal cut and the Pacific fleet of the United States sunk by the Japanese, say, without fortifications the way to the Atlantic coast of America would be short and easy. It is not a thought to bring repose to the national mind.

The United States now possesses such rights at Panama as Colombia formerly possessed. If the United States in any way fails to accord to EVERY NATION ALIKE PRECISELY THE SAME PRIVILEGES in using the canal the United States will be practically in the same position before the world as was Colombia.

The right of the world's free use of the seas must stand higher than the sovereign rights of any one nation, and the waters of a canal, like the Panama canal, are considered by the nations in the same light as is the open sea. Without menace and without obstruction, however small, such a canal should be OPEN TO EVERY VESSEL IN PEACE OR IN WAR.

PERMANENT FORTIFICATIONS AT PANAMA, WHILE BRINGING MORE PROTECTION TO THE UNITED STATES, WOULD ALSO BRING ON MORE DANGERS. THE ONE CAN'T BE HAD WITHOUT THE OTHER.

I do not believe the Pacific will be an American lake with the canal completed. The countries of the east would DISPUTE WITH THE UNITED STATES THE MAKING OF THE PACIFIC INTO AN AMERICAN LAKE. Japan will watch with great concern the building of a fortified canal, and I feel quite sure that any proposition for a permanent fortress at the western terminus would be keenly felt in the Land of the Morning Sun.

## PICTURE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna road, the scenic highway of the East Coast. The town is located on the Halifax River, and is connected with the peninsula opposite by a bridge.

The town is well laid out and has many pretty homes. A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing.

A short distance west of Port Orange are the remains of the old Dunlawton sugar mill, a place that is visited every year by hundreds of tourists. One time all the country west of Port Orange, surrounding the old mill, was a vast indigo and sugar cane plantation. The mill was operated extensively in those early days but has been in disuse for many years.

A very interesting drive from Daytona is by ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through the principal street of Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland.

## BOY HAD NARROW

## ESCAPE FROM DEATH.

FELL FROM HORSE WITH FOOT IN STIRRUP—NOT MUCH INJURED—HORSE WOUNDED BY IMPACT WITH WIRE FENCE.

Quinn Branch, youngest son of Mr. and Mrs. E. A. Branch, of Daytona Beach, had a narrow escape from death or serious injury Friday afternoon when he fell from a horse at the P. E. C. Ry. depot with his foot entangled in the stirrup.

Young Branch, a boy about twelve years of age, had been sent to the depot with some baggage checks and was riding a sorrel mare, the property of Mr. Nicholson, his father's partner in the livery business. The mare is a nervous, quick actioned animal, though not in any way vicious. Young Branch found the saddle blanket slipping and alighted at the entrance to the railroad depot yard and frightened the girl. The mare did not stand well when he attempted to remount and with one foot in the stirrup the saddle turned under the horse's belly and Quinn fell to the ground.

The horse, frightened by the turning of the saddle and the boy's fall, bolted east on Volusia avenue. Very fortunately, the boy's foot slipped from the stirrup before he had been dragged far.

Quinn, though badly shaken up and bruised, seemed to have escaped any serious injury. He was placed in a carriage and driven to the ferry at the foot of Volusia avenue, crossed the river and walked to his home on Seabreeze avenue, Daytona Beach.

The horse was recovered later on South Ridgewood avenue, but was badly wounded on the breast and a fore leg by contact with an iron wire fence, which she had attempted to cross.

## THE HENRY LUDLOW HERE ENROUTE TO MIAMI.

The Henry Ludlow, a ferry boat hailing from Babalon, Long Island, New York, touched here today for necessary supplies. She is enroute to Miami to charter for the winter and has aboard her owner, Captain M. Smith, and a party of friends.

The Henry Ludlow is 70 feet in length and 16 feet beam and has a draft of three feet. For horsepower she has two 40 horsepower Lamb engines. She tied up at the Halifax River Yacht Club dock on her arrival shortly before noon today and remained only a short time.

The vaudeville troupe which played to a large and appreciative audience at the Daytona Theater last night made The Hamilton, on South Palmetto avenues, headquarters while in the city.

## AGAINST ISSUE OF BONDS

## VOTE IN ORANGE COUNTY.

VOTERS THINK SUM ASKED FOR BUILDING BRICK ROADS TOO HEAVY BURDEN FOR THE COUNTY.

ORLANDO, Dec. 10.—At the election held here the voters of Orange county spoke in no uncertain terms and said they were decidedly against issuing bonds to the amount of \$1,000,000 for brick roads. Returns are all in except two small precincts. Out of a total vote of about 2,900 there were about 1,950 votes against the issue and 950 in favor of the bonds. The above are not exact figures, but approximate estimates.

The result is a surprise to even those who were working against the bonds. It has been evident for several days that the bonds would be defeated, but the majorities are larger than expected.

The precinct of Sanford was the only one that gave a majority in favor of the bonds and that majority was very small.

Orlando voters returned 512 against the proposition and only 190 in favor of it.

There are, perhaps, two reasons that have caused the result. A great many people are opposed to going in debt for any purpose and voted against the bonds because they would mean debt. Doubtless a great many others could see only the small additions to tax that they would need to pay and failed to appreciate the fact that material prosperity of the whole county would bring increased value to every acre of land and every home.

On the principle that the majority is always right, doubtless the county will prosper more with sand and clay roads than they might have done with vitrified brick.

## SHIPMENTS OF CITRUS HEAVIER THIS YEAR.

The railroads report total shipments out of the state up to this week of citrus fruits as 1,036,947 boxes. As compared with total shipments of 1,099 to the same date, 1906, 1907, increase over last year of 240,912 boxes. There will be shipped this year fewer boxes than were shipped last year. At the present rate of shipments there will remain in the state on January 1 not exceeding 1,000,000 boxes, probably not over three-quarters of a million boxes of citrus fruits, as compared with 3,000,000 boxes shipped last year after the first of January.

Excellent Hunting and Fishing  
NEW SMYRNA, FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

**DR. KLOCK  
WANTS JOB  
OF MAYOR.**

MEMBER OF CITY COUNCIL

SAYS HE IS IN THE RACE.

HAS PLATFORM FOR BETTER-  
MENT OF CONDITIONS WHICH  
HE BELIEVES SHOULD APPEAL  
TO THE VOTERS.

Dr. G. A. Klock is also a candidate for the office of chief executive of the city of Daytona and his announcement as a participant in the race gives the citizens assurance of a merry, three-cornered fight for the honor of upholding the dignity of the city and issuing orders from the big easy chair in the city hall.

As in the announcement of Messrs. Heymann and Zuber, Dr. Klock has some pronounced ideas of certain reforms which would be beneficial to the city of Daytona and his platform could be summed up in the following planks:

A rigid enforcement of the city ordinances.

Changing the city charter to admit of the appointment of a municipal judge to try all cases in the city court.

Improvement of the sanitary conditions of the city.

The organization of a board of trade to boost Daytona.

Better streets and parkage.

Dr. Klock believes there is room for improvement in the matter of rigid enforcement of the city ordinances and refers particularly to the ordinance which was passed some time ago saying the buildings in the city may be numbered and amended last summer to read that the buildings "must" be numbered. This, in the opinion of Dr. Klock, is the first step toward free mail delivery for the city and the ordinance should be more rigidly enforced than it is at the present time.

The proposition of having a change made in the city charter to permit of the appointment of a municipal judge, before whom all city court cases should be tried, is one of the utmost importance to the voters and citizens of Daytona. Dr. Klock is of the opinion that in this way the city ordinances will have a more strict enforcement and that the treasury of the city will be enriched by fines resulting from cases which could just as well be tried here, but which are now turned over to the county court, where the fines are assessed and collected. In this connection it would be possible for the city council to designate that the municipal judge should also act in the capacity of city attorney. The combining of the salaries which are now paid to the mayor and city attorney for the salary of the municipal judge and the added collections in fines would result ultimately in a financial saving for the city.

Dr. Klock believes there is plenty of room for improvement in the sanitary conditions of the city, particularly in the outlying districts and negro settlements, and that changes in this direction may be the means of preventing a wave of contagious disease from sweeping over the city at some future time.

One of the strongest points in the announced platform of Dr. Klock is the idea that the city of Daytona should have a live board of trade, composed of the business men of the

city, and that the mayor should be the active power behind such a business organization. There is little question but that a live board of trade could do much toward advertising Daytona and putting the city in a condition to be more attractive to visitors.

The plank on better streets and parkage is along the same line as what might be accomplished by a board of trade put forward by the candidate for mayor with the idea that there is room for much improvement and many changes in this direction.

**NEWS OF THE HOTELS****THE SEVILLE HOTEL**  
ENLARGED AND IMPROVED

The Seville, an advertisement of which appears in the hotel columns of the Daily News, was enlarged the past summer to nearly three times its former capacity by the addition of a three-story wing, with many sleeping rooms, sun parlor and lounging rooms. The dining room and kitchen have been greatly enlarged and the whole building has entirely new, sanitary plumbing, while all the guest rooms are supplied with hot and cold water and many of them with private baths. The rooms are all of good size, tastefully furnished and attractive.

The addition, or wing, is connected with the original building by a cheerful sun parlor and lounging rooms, and the two wings and new front enclose a bright, open court. A large and comfortable veranda extends across the front of the house. Spacious grounds surround the hotel.

The cuisine, under the supervision of the proprietor, is a main feature and the management, as in the past, will spare no efforts in seeing to the comfort and convenience of the guests.

**FLORIDA GROWING STEADILY**  
THE CENSUS FIGURES SHOW.

STANDS FIRST IN THE LIST OF  
SIXTEEN STATES IN PERCENT-  
PAGE OF INCREASE IN ITS  
POPULATION.

Up to the present time the population of 16 states have become known by the announcement of the census bureau of the result of the 1910 census. As the figures are announced for each state the percentage of increase or decrease is also announced and Florida is first on the list of the first 16 states. The percentages shown by the states are as follows:

Florida	42.1
Rhode Island	26.6
New York	26.4
Connecticut	22.7
Massachusetts	20.0
Alabama	16.9
Michigan	16.1
Kansas	15.0
Ohio	14.7
Delaware	9.3
Indiana	7.3
Maine	6.9
Missouri	6.0
New Hampshire	4.6
Vermont	3.3
Iowa (decrease)	0.3

Florida's increase, it will be seen, is nearly double that of its nearest competitor on the list—Rhode Island; and still we grow.

**MAGICIANS ARE COMING**  
TO SHOW IN DAYTONA.

Word has been received here by Manager W. S. Shead of the Daytona Theatre that because of the death of his wife Mr. Laurant, the magician who was to open the lyceum course here the evening of December 17, has been compelled to cancel all future engagements and will not be able to fill his engagement here.

In place of Mr. Laurant the Karl Germain company has been secured to fill the contract engagements of Mr. Laurant, but in the mixup it has been found necessary to set the dates ahead one week and the Karl Germain company will open the lyceum course in the Daytona Theater the evening of December 23.

The backers of the lyceum course feel to congratulate themselves that they have been able to secure the German company, which is a better and higher priced attraction than the Laurant attraction.

\*\*There is always room for a business to expand and the proper way to build up any business in Daytona is to advertise in the Daily News. If Miss May Weaver will call at the Daily News office before Monday night she will be given two tickets to the Crystal theater.

**A LITTLE TALK FROM THE  
EDITOR**

The Daily News and the Gazette-News make a charge of one-half rates for advertisements of church festivals and other religious and charitable affairs where an admission fee is charged or money collected from the sale of articles of any kind. We feel that our contribution to the cause is 50 per cent. of the regular charge, which we invariably deduct from the bill, making the net charge for readers five cents per line.

There is a point, however, about which many persons neglect to think, and it is this: Where the placards or other printed matter necessary to these church socials, etc., is printed in the Gazette-News Printery we give the affair a "story" in the Daily News. Where the printing is done elsewhere we cannot be consistently expected to "boost" the affair.

This little moral is mentioned only because many persons have never perhaps thought of it in this light.

THE EDITOR.

**The Milky Way.** The Milky Way is an irregular mass of stars scattered in the sky and has the general shape of a great circle, marked as an arc of some three degrees in the north. Its brightness is due to the fact that much of it lies composed of stars which have been obscured in various of the foregoing. It is visible from here to twenty degrees on one side of the equator and some two nearly parallel bands of unequal brightness, which are

Beach, two charming and  
progressive towns on the Hal-  
ifax Peninsula, are geographically  
one although incorporated as sepa-  
rate municipalities. The towns par-  
allel the peninsula north and south  
for a distance of from three and one-  
half to four miles, and extend east  
and west from the surging seas of  
the Atlantic Ocean to the Halifax  
River, the beautiful tide water  
stream that sets them apart from  
Daytona with which they have close  
communion by means of three  
bridges, as well as a half-hour ferry  
service.

Seabreeze and Daytona Beach are  
essentially summer and winter re-  
sorts and are making hundreds of  
new friends every year among those  
who desire to escape the discomfort-  
ing extremes of heat and cold, and  
their hotels and boarding houses  
are now receiving splendid patron-  
age from the most discriminating  
class of tourists.

The ocean itself, with its marvel-  
ous beach, hard as macadam and  
smooth as a floor, is the greatest at-  
traction, although earth, air and sky  
seem to have entered into a combi-  
nation to enhance its every charm.  
The beach is the famous automobile  
race course where every world's  
straight-away record has been made,  
and all these records it continues to  
hold without rivalry.

The beach has a width of 300 to  
500 feet and can be used from two  
hours after until two hours before  
high tide, thus giving an average of  
seven or eight hours for automobil-  
ing some part of each day.

Seabreeze and Daytona Beach each  
have a permanent population of ap-  
proximately 1500. Sanitary ordi-  
nances are strictly enforced, streets  
and sidewalks are well kept, and  
new streets are being opened as fast  
as the increasing population de-  
mands. Besides hotels and boarding  
houses there is ample cottage accom-  
modation for all winter visitors in  
both towns.

All the attractiveness of Seabreeze  
applies to Daytona Beach, the two  
towns being so similarly situated.  
The development of Daytona Beach  
has been fully as phenomenal as its  
sister on the north, and each year  
there is a substantial growth. The  
great sand dunes have been leveled  
and handsome homes have been  
built for both winter and all-year-  
round occupancy.

## The Tin Plated Tomato and the Moral That Goes With It.

A good theory that won't work isn't  
half as good as a poor one that will.

Twenty years ago a young man just  
out of college had a great idea. He  
was going to tin plate tomatoes. There  
was to be no more troublesome paring  
and cooking and canning to preserve  
tomatoes throughout winters. It would  
be necessary only to drop a nice ripe  
tomato into his tinning solution and it  
would come out coated with tin and  
would keep for twenty years. In fact,  
there wasn't any reason why it should  
not keep forever! The young inventor  
figured it would cost him 50 cents a  
gallon to make this tinning solution.  
It surely would sell for \$2 a gallon.  
Every one eats tomatoes—that is, nearly  
every one. Everybody would eat  
them if they could always have a nice  
tin plated tomato lying around. He  
ought to sell a million gallons a year.  
That would be a profit of a million and  
a half dol— Well, no tin plated toma-  
toes are on the market yet, and the  
man who invented them is still pining  
only \$15 a week.

The moral of this is that whenever  
you hear of a great idea that is going  
to reform or uplift the world make  
sure that it is not of the tin plated  
tomato brand.—Chicago Tribune.

## Napoleon's Destructiveness.

Napoleon was destructive by char-  
acter and custom. He stuck his paper  
knife into the costly chairs that were  
provided for him everywhere. He wast-  
ed huge quantities of paper. When-  
ever he took up anything that was  
frail or finely worked he was quite  
certain to demolish it or damage it be-  
fore he put it down. He pulled up  
the choicest plants in the hothouses,  
and when he could do it without being  
seen he used to shoot Josephine's rare  
birds.

One day the emperor shot out one of  
the eyes of Massena, the duke of Ri-  
voli, but nothing was said of it. Ber-  
thier took the blame for it, probably  
because he was master of the hunt—  
"Napoleon's Men and Methods."

## England's Newspaper Tax.

On June 15, 1855, England's news-  
paper stamp duty was abolished, and  
the reign of the cheap daily began.  
This "tax on knowledge" was first im-  
posed in 1712 and was made most se-  
vere by the act of 1820, which fixed it  
at 8 cents a sheet, with 87 cents duty  
on each advertisement. The Whigs  
reduced the duty to a penny in 1836,  
but when the Crimean war broke out  
and every one wanted the news even  
a penny duty was found to be intol-  
erable. Its repeal is called the Magna  
Charta of the British press.

## KEEPING TAP ON THE CROPS

The Way the Agricultural Department  
Gets Its Information.

The details of the comprehensive sys-  
tem employed by the department of  
agriculture in gathering the crop in-  
formation from all over the country  
are interesting. There are 30,000  
township correspondents scattered all  
over the Union, whose duty it is to go  
carefully over the territory and submit  
each month concrete information as to  
the condition of all kinds of crops. In  
addition to this branch, 3,000 "county  
correspondents" send in separate re-  
ports from those of the township men.  
A state agent makes a further report  
direct from his agents, and an organi-  
zation in direct communication with  
the department, comprising seventeen  
traveling "field agents," go about the  
country and make separate reports for  
groups of states. Special cotton cor-  
respondents are also employed to fur-  
nish accurate information concerning  
the cotton yield. Five different reports  
are sent to Washington each month  
by five different sets of correspondents.  
This safeguards the government crop  
reports for accuracy in local crop re-  
ports and keeps the great crop account  
and cost estimates for the millions of  
American farmers. These records are  
sent to the agricultural department. Of-  
ficials of the bureau of statistics and a  
board go over all the five reports from  
five distinct groups of correspondents,  
and from all the figures a crop report  
estimate is distributed to 70,000 post-  
offices throughout the country every  
month.—National Magazine.

## For the Sake of the Cause.

The other day a tramp called upon a  
pronounced advocate of woman's  
rights. His tale was a very plausible  
one, but did not seem to meet with  
much sympathy.

"Why don't you go to work?" asked  
the suffragette.

"Please, mum," explained the weary  
one, "I made a solemn vow ten years  
ago that I would never do another  
stroke of work till women was given  
a vote."

He was taken in—so was she.—Ex-

## The Milky Way.

The Milky way is an irregular lum-  
inous belt that encircles the celestial  
sphere and has the general shape of a  
great circle, inclined at an angle of  
sixty-three degrees to the equinoctial.  
Its luminosity is due to the myriads of  
stars or suns composing it, many of  
which have been revealed to us by  
means of the telescope. It varies in  
width from four to twenty degrees and  
at one point of its course splits up  
into two nearly parallel branches of  
unequal brightness, which do not re-  
unite for a distance of 150 degrees.

## A Lottery Ticket.

A few years ago, on the 15th of May,  
drawing of the annual lottery of the  
city of Madrid was taking place. A  
mechanic of Cornudas was one of the  
three conservative nights by the num-  
ber 125,880, apparently against his  
ear. So impressed was he by the won-  
drous coincidence of the number and  
the date of the incident that he won-  
dered down the number and journeyed  
to his wife. "That number will win  
the first prize in the great lottery."  
"Then why don't you buy the ticket?"  
his wife answered jokingly as she  
looked at the figure. "Why, yes, if  
you add them together they just come  
to my age. I shall be thirty-one on  
Christmas day." The ticket, after much  
trouble, was found (it had been reject-  
ed a few minutes earlier by a wealthy  
citizen of Cornudas and bought, and  
before many days had passed the me-  
chanic and his wife were made just-  
lucky by the news that the ticket had  
won the first prize of \$250,000.—Lon-  
don Globe.

## The Red Shirt.

The origin of the "red shirt"—worn  
as a blouse by English women in the  
sixties, when Garibaldi was a popular  
idol throughout Great Britain—is suf-  
ficiently curious. When the celebrated  
dilettante was warring in the South  
American republics he was anxious to  
obtain a distinctive and, above all,  
economical uniform for his followers.  
He learned that a local dry goods  
store had an immense "job lot" of  
these garments, worn by the "un-  
derdogs," or cattle slaughterers of the  
great South American cities. The "bar-  
gain sale" appealed eloquently to the  
leader's purse, and he led his men to  
victory in the butchers' shirts, which  
are now the accepted emblem of the  
"risorgimento" of United Italy.—Lon-  
don Globe.

## A Little Temperance Tragedy.

"Don't drink any more, John. You've  
got too much already."  
"No, I haven't."  
"Yes, you have, and you'll be drunk  
again."

## The Price of Love.

Says an advertisement in the London  
Express: "Mary—Waited three hours  
at appointed spot until questioned by  
suspicious policeman. If this is the  
price of love it is too heavy a one for  
me to pay. Farewell. Potts."

## Time and Patience.

No road is too long for him who ad-  
vances slowly and does not hurry, and  
no attainment is beyond his reach who  
equips himself with patience to achieve  
it.—La Bruyere.

and its attractiveness.

## General Miller Has the Largest Bible Class In the World

The largest men's Bible class in the world is not in New York, with its City of Churches, nor anywhere in Europe, but in the little city of Franklin, with a population of not more than 10,000, in the Pennsylvania oil fields. It has an active membership of 800, with a number of distinguished honorary members, and recently it has been supplemented by a woman's auxiliary which has more than 200 members. It is a unique organization and one of the institutions for which Franklin claims distinction. Though it is a part of the Sunday school of the First Baptist church, it is in effect nondenominational, for every church in the city is represented in its membership. It is presided over by General Charles Miller, the millionaire oil man who revolutionized railroad lubrication. He has been superintendent of the Sunday school ever since it was organized in 1874 and leader of the men's Bible class for nearly as long. When the new First Baptist church was erected General Miller built as an addition to it a Sunday school annex, which seats 1,500 people, and in it he maintains an orchestra of twenty pieces and a choir. The men's class had its origin thirty-five years ago in five of the wildest boys in the city whom no one but General Miller would attempt to teach. He succeeded so well with them that his class grew steadily, taking in men of all ages and all creeds. All of the original five boys are still members of it. One of them is a minister in Philadelphia. General Miller believes that, as a general rule, men prosper in proportion to the extent to which they carry religion into their everyday lives, and he is always urging a closer adherence to "the brotherhood of man." He talks rather than preaches in plain and forceful language, and he has had a great influence in the religious growth of the community. There are many who believe he is prouder of his Bible class than he is of the vast business he has built up, and he is seldom absent from it. One of its honorary members is Rev. Charles Wagner, author of "The Simple Life," whose birthplace in Alsace is close to that of General Miller.

### Audubon and His Hair.

Audubon, the great naturalist, early in his career wore his hair very long. He wrote in his diary one day: "I wear my hair as long as usual. I believe it does as much for me as my paintings." However, in 1827 his friends succeeded in persuading him to get his hair cut according to the prevailing fashion. On March 19 of that year he wrote in his diary: "This day my hair sacrificed and the will of God usurped by the wishes of man. As the barber clipped my locks rapidly it reminded me of the horrible times of the French revolution when the same operation was performed upon all the victims murdered by the guillotine. My heart sank low." Further to express his grief, the margin of the page on which this entry was made he painted black about three-quarters of an inch deep all around.

### Still Wondering.

The deaf man got out of the tram-car on to the other line of rails. "Look out! There's a car coming!" cried the conductor. "What?" said the deaf man. "There's a car coming." "What?" Just then the car caught and knocked down the deaf man, and as he picked himself up he said: "I wonder what that fool kept me there talking about!"—London Mail.

### Just the Opposite.

An Irishman at a fair got poked in the eye with a stick and took proceedings against the offender. Said the magistrate, "Come, now, you don't really believe he meant to put your eye out." "Faith, you're right this time," said Pat, "for I believe he tried to put it farther in."—London Tit-Bits.

**The Moral Stimulus of Good Clothes.** Men grow in self respect as they wear good clothes. Their clothes earn them the approval of their fellows. In turn they are forced to grow to fill the measure of good opinion, so that, forced forward by the clothes he wears, men attain to their highest capability.—Sartorial Art Journal.

### The Exception.

"Doesn't your husband like cats, Mrs. Binks?" "No, indeed. He hates all cats except a little kitty they have at his club."—Baltimore American.

A man without patience is a lamp without oil.—De Musset.

The Roman father is the proverbial type of sternness, but on occasion the medieval Italian parent could be quite his match. In his "Woman in Italy" Mr. Boulton mentions that early in the sixteenth century Pietro Lando, afterward doge, but then podesta at Padua, ordered his own natural son to be decapitated for the offense of kissing a girl, with whom he was in love, in the public street.

### The Electric Fan.

Back in the early eighties Dr. S. S. Wheeler, an electrical engineer of New York, was experimenting with a small electric motor. In the course of his experiments the doctor conceived the idea that steamboats might be run with electricity if the propellers could be directly connected to high speed electric motors, doing away with all the gears then in use in steam propulsion. With this idea in mind he had a small screw propeller constructed and fastened it to the armature shaft of his small motor. To his surprise the experiment resulted in a fine breeze of cooling air which more than delighted the experimenter, for the day was decidedly hot. It is needless to add that the experiments with screw propellers ended right there, and the engineer took up the study of the electric fan, with the result that he soon perfected the device until it was a commercial success.

### Bonnyclabber.

New drinks have sometimes a glorious and brief popularity. Lord Strathford, writing to Lord Cottingham in 1635, extols "bonnyclabber," which he says "is the bravest, freshest drink you ever tasted. Your Spanish don would, on the beats of Madrid, hang his nose and shake his beard an hour over every sop he took of it and take it to be the drink of the gods all the while."

No one, however, seems to know the exact composition of the seductive "bonnyclabber," although from an allusion to it by Ben Jonson it would seem to have been a mixture of beer and buttermilk.—London Chronicle.

### Willing to Divide.

Cobble—I should like to lend you that \$10, old man, but I know how it would be if I did. It would and our friendship. Stone—Well, old chap, there has been a great deal of friendship between us. I think if you could make it five we might worry along on half as much.—Life.

### The Fateful Message.

Hubby—Didn't I telegraph you not to bring your mother with you? Wifey—I could not help it, Frank. She insisted on coming after she'd read your telegram.

Genuine benevolence is not stationary, but peripatetic. It goes about doing good.—Nevins.

### It Looks Cheap.

I never saw in all my life a cheaper thing at a bargain sale than a man who's waiting while his wife buys "marked down white goods" by the bale. —Cleveland Leader.

There is a belief current in West Africa that the most dreaded disease of the coast, black water fever, is often the result of too much quinine, while the medical authorities are inclined to think there is a special black water fever germ.

## GRIDIRON HEROES.

Ones Who Never Win Places in the Football Hall of Fame.

### AND THEY WEAR NO "LETTER"

These Practically Unknown Men Are the "Scrubs," Who Help to Keep the Varsity Team on Edge—They Play the Game For the Game's Sake.

There is no royal road to a thorough knowledge of American college football. The preparation of the varsity eleven is long and hard. The mills of the coaches grind slowly, and they grind exceedingly fine. There is nothing in store for much of the good material that in the end must be relegated to the side line. These men, wrapped in gray blankets, who line the low fence surrounding the field on the day of the big game, are the scrubs, or second team men.

There is a paradox in their situation—their only chance for personal glory lies in the defeat of the varsity eleven. There comes a time in many a big game when a coach, realizing that the day is lost, that his varsity men have done their utmost to no purpose and are being swept steadily down the field, will throw into the game scrub after scrub, hoping against hope that these men will play better than they really have a right to and so turn the tide. And even ten seconds in the big game give the scrub his letter.

So it is in after years that one may point out many a wearer of the letter who was not nearly so good a football player as many scrubs. It has happened, too, that a man has fought for years in the hope of making the eleven, has improved slowly, if surely, has been sent into the big game as a forlorn hope and has played a game the like of which has not been seen on the field that season.

Even scrubs take their triumphs and their disappointments differently. There are not a few who are proud to have been on the second team in the year that the first eleven swept all before it. They have no varsity letter, but the discriminating know that they were better players than some of the varsity men of other years. There are other scrubs who bemoan the fact that they were not in college when the general average of the players was low and they would have been almost certain to make the first team. Be it said, however, for the honor of the second team that instances of the latter type are rare. A scrub player learns the lesson of self sacrifice. It is his but to be walked over daily by the varsity, while most of the instruction and encouragement are lavished on said varsity.

As a rule, however, there comes at least one week in the season when the scrubs are pampered and petted and made much of. The varsity is in the throes of a "slump," is lagging, dispirited and sullen. It is then that the scrub team suddenly finds that it is being taught to play the game just as if it were to take the field as the first choice against the foe. There is a coach for almost every man, there are words of encouragement, much valuable instruction and a new esprit de corps. Under the new inspiration the second team sweeps the flagging varsity off its feet, humiliates the first string players to the uttermost, while the coaches cheer the scrub and jeer the varsity. At least once a season it is very good to be a scrub, for at least once a season the scrub defeats and humiliates the team that has proved perhaps a terror to all its outside rivals. Nothing has such a salutary effect on the varsity as the eating of humble pie once in a while.

In late years the scrub is getting more consideration than in the old days. Yet the men play principally for the love of the game and in order to make the going as hard as possible for the varsity. Sheer loyalty and the thrill of battle keep them at it year after year. They learn football from the ground up. They see the big games from the side lines and, knowing the signals, have a peculiar advantage over any other spectator. With a knowledge of the signals one may criticize the handling of the big team in the big game—may more readily understand the strategy of coach and quarterback.

It is this opportunity to analyze the big games, coupled with the chance to get practically as good coaching as the varsity, that makes excellent coaches out of many scrub players. Some of these scrubs have gone back to college and turned out freshman teams that have been able to fight the varsity to a standstill and so have astonished the very coaches who taught them. There have been instances of this at nearly every big institution in the east. Sometimes the services of these ex-scrubs have been eagerly sought by the veteran varsity coaches, and many a man without a field reputation has proved to be no mean strategist.

It is really these ex-scrub men who keep up the high average of interest in the game. They are turned out yearly at the rate of five or more to every varsity player. The varsity man may lose interest in the game in after years, but the scrub practically never. It is they who are the backbone of the pilgrimages to West Point, and it is they who talk football far into the night in the club and chop house.

The scrubs, in a word, all unhonored and unsung as they are, are the backbone of the game in the colleges and out of them. They play the game and they watch it for the game's sake.—New York Post.

## BATTLES WITH LOCUSTS.

In 1780 an Army Was Arrayed Against the Ravaging Pests.

Since the days of the pharaohs the locust has been an unmitigated plague. Pliny relates that in many places in Greece a law obliged the inhabitants to wage war against the insects three times a year—i. e., in their various states of egg, larvae and adult.

In 1749 locusts stopped the army of Charles XII., king of Sweden, as it was retreating from Bessarabia after its defeat at Poltava. The king at first imagined that he was being assailed by a terrific hailstorm.

In Transylvania in 1780 the ravages of the locusts assumed such disastrous proportions that the army had actually to be called out to deal with the pests, and whole regiments of soldiers were employed gathering them up and putting them into sacks.

A weird, uncanny looking customer is the locust. The general color scheme of his body is a kind of indefinite green, relieved by pink legs and wings of a whitish color. Two huge, blank, unmeaning eyes give an expression of utter imbecility to the insect's countenance.

To atone in a measure for their destructive proclivities the locusts are edible. The Arabs are particularly fond of them. Camels, to which they are given after being dried and roasted between two layers of ashes, look upon locusts as great delicacies.

The flavor resembles that of crabs, and in Bagdad they are consumed so extensively as to affect the price of meat.—Stray Stories.

## RIVERS OF ALASKA.

The Waterway Wonders of This Immense Territory.

Were the rivers not navigable there would be little done in the interior of Alaska today. First used by the prospector in his panning boat and the trader with his little steamer, they have become the means of opening up every camp that has been struck in the interior of Alaska.

The Yukon is very shallow at its mouth, which is about seventy miles in width across its delta. There are places 400 miles from the mouth of the river where the biggest Atlantic liners could navigate with ease, for there are soundings which show a ninety foot channel in a mile wide river. The Yukon is navigable for 2,100 miles. The Kuskokwim, a sister stream, has been navigated only on the lower reaches, but with its navigable branches is believed to have 1,000 miles of navigable water. The Tanana has been ascended for 500 miles and the Koyukuk in excess of that figure. Scores of other streams can be used by small steamers from from twenty-five to 200 miles. Altogether it is safe to say there are 5,000 miles of navigable streams in Alaska. The Yukon opens for navigation the latter part of May and closes the latter part of October.

But with all its wealth of gold, its unheard call to toilers of the soil, its mountains studded with gems of riches—the lodes of veins of copper and other materials—this empire starves for the one thing that would make it thrive.—Collier's.

### The Name Noah.

Not many persons are sufficiently acquainted with the Bible to know that Noah was the name of a woman as well as of the patriarch. At an inquest in England a female witness gave her Christian name as "Noah." The coroner remarked that he had never before known a woman to bear the name, whereupon the witness, who was well posted in the origin of her singular prenominal, said:

"It is a Bible name, sir; you'll find it in the last chapter of the book of Numbers." Reference was duly made, and in the eleventh verse of the thirty-sixth chapter the coroner found mention made of "Mahlah, Tirzah and Hoglah and Milcah and Noah, the daughters of Zelophehad."

### Betrothals in Germany.

In Germany an elaborate method of announcing the betrothal practically puts an end to all breach of promise cases. As soon as a couple become engaged the pair visit the town hall and declare their willingness to marry and sign, with witnesses, a series of documents which render a change of mind on the man's part practically out of the question. When either party wishes to withdraw from this agreement the pair again visit the town hall and additional documents are formally signed, witnessed and sealed. The authorities then determine the question of compensation for injured feelings, etc.

### Ready For the Storm.

"I intend," the poet wrote, "to continue to storm the citadel of your affections."

"Storm away," she wrote back, "but I've just succeeded in getting in out of the wet by becoming engaged to a dear old man who has \$9,000,000."—St. Louis Post-Dispatch.

### The Smaller One.

Many stories are told of Tom Reed's sudden flashes of wit—as, for instance, when Miss Reed struck the earth instead of the golf ball and he said, "Hit the other ball, Kitty."—Portland (Me.) Express.

### An Instance.

"We don't realize how much a thing's worth till we've lost it." "That's right. For instance, my life is insured for \$10,000."—Exchange.

No man is such a conqueror as the man who has defeated himself.—Beecher.

THE EXCELSIOR CLASS SUPPER AT EPWORTH LEAGUE HALL.

The supper at Epworth Hall last night given by the Excelsior Class of the M. E. Sunday school was a very pleasant and successful affair, both from a social and financial standpoint.

The hall was tastefully trimmed in red, which color scheme was also carried out in the table decorations and in other features, the young ladies waiting upon the tables being dressed in white, with red aprons and ties. The supper was largely patronized.

The menu was an attractive one, especially from the fact that it was a question as to what was being ordered the various dishes bearing fictitious names upon the menu.
